STUDENT INDUSTRY MENTOR - CONNECT

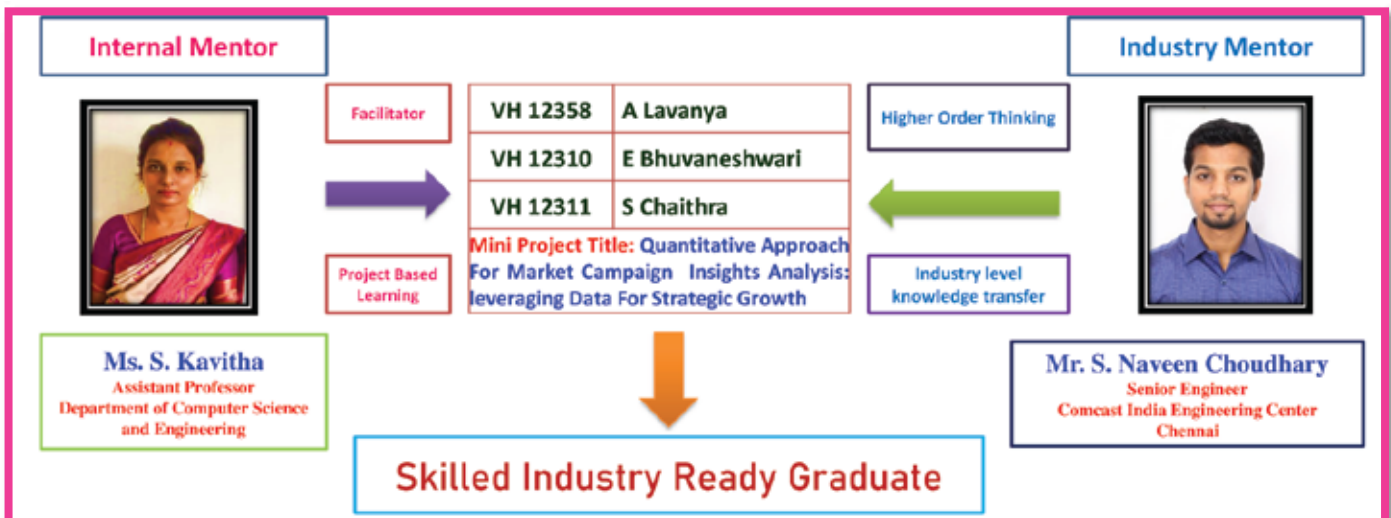

SIMc (Student Industry Mentor-Connect) - bridges the gap between academic learning and industry demands by connecting our students with renowned industry professionals

SIMc – OBJECTIVES

Project-Based Learning: Industry mentors engage our students and review their mini projects that integrate theoretical knowledge with practical application, fostering higher-order thinking and bridges the gap between academia and industry through which our student feels the industry environment within the institute itself.

Experiential Learning: Students are exposed to latest advancements in their field of study, gaining industry exposure, solving real world challenges and becoming proficient engineers by frequently interacting (2 Interactions per batch per month) with Industry mentors.

Industry Ready Graduates: Eminent industry mentors are providing practical insights and hands-on experience to our students through SIMc. This mentorship prepares our graduates with the skills and knowledge needed to excel in their career. By connecting our students from II year till IV year (3 Years duration), our students meet industry expectations and becomes skilled industry ready graduates.

CREDENTIALS BY OUR PLACED STUDENTS

Hashedin
by Deloitte

My college's Training & Placement Department provided strong support for placements by organizing aptitude training, mock interviews, group discussions, and technical sessions. These helped improve my communication, problem-solving, and technical skills. With continuous guidance from faculty, I was able to attend interviews confidently and secure my placement. I am thankful to my college for shaping my career.

Mr. ANBAZHAGAN. R, AI&DS (Batch: 2022-2026), CTC: 8.10 LPA

Advanced Infrastructure and Learning Environment: All Computer labs are equipped with the latest configuration core i7 high-performance computing systems, latest software tools, and high speed internet connectivity.

Research and Innovation Hub: Our faculty and students are actively engaged in cutting-edge research activities and published research articles in reputed SCI/Scopus journals and conferences. All the departments having a strong focus on innovation, and carrying out various projects in areas of artificial intelligence, machine learning, cybersecurity, IoT, Block Chain, data science and many other frontier areas.

Industry Collaboration and Career Development: The Computing department maintains active collaboration with leading tech companies, offering students numerous opportunities for internships, workshops, industry-sponsored projects and placements. Our career development programs include coding, bootcamps, hackathons, and mentorship initiatives which help the graduates to become industry ready engineers.

- ✦ Centre of Excellence (CoE) in AI & IoT was established in 2023 which was funded by AICTE, New Delhi. Over 25 Lakhs worth of high performance AI & IoT enabled hardwares, computers, sensors and softwares are available in the CoE.
- ✦ Students can design and develop AI & IoT related projects using AI/IoT enabled development boards such as Raspberry PI, NVIDIA Jetson Nano and ESP8266.
- ✦ Sensors related to various AI/IoT applications such as home monitoring/automation, environmental monitoring, agriculture monitoring, gas analyser, industrial automation are available. Cameras, GPS/GPRS and OLED display are also available.
- ✦ Students can build AI/IoT related softwares using MATLAB R 2024a (Campuswide license), Python and R programming languages.

- ✦ Centre of Excellence (CoE) for Computational Methods in Chemical Engineering (CMCE) was established in 2022 from the fund received through AICTE MODROBS SCHEME, New Delhi.
- ✦ CMCE-CoE is equipped with ASPEN PLUS and ASPEN HYSYS simulation software having 150 licenced user access and 100 virtual simulating modules required for modelling new and exciting processes such as distillation column, heat exchangers, reactors, etc..
- ✦ Students are utilizing the steady state simulation in their mini project and project work for process flow development, plant simulation, design and optimization studies which help them to understand/familiarize the real time processes and troubleshooting.
